Summary

Frontend Developer with 2+ years of experience specializing in building web applications using **React.js**, **Redux**, and **TypeScript**. Skilled in designing scalable and reusable UI components, integrating APIs, and optimizing application performance. Hands-on experience with **databases** like **MongoDB** and proficiency in tools such as **Material UI**. A proactive problem solver with strong collaboration skills, committed to delivering high-quality solutions while staying updated with the latest frontend technologies and best practices.

Skills

Frontend: React.js, Redux, JavaScript, TypeScript, HTML5, CSS3, Bootstrap, Material UI

Frameworks: Redux Toolkit, Spring Boot, Maven

Databases: MongoDB

Tools & Technologies: Git, Webpack, Firebase, Postman, Figma, JSON, API Development

IDE: WebStorm, IntelliJ IDEA

Work Experience

Frontend Developer | Independent Projects (2023 - Present)

- Built and maintained high-performance user interfaces using **React.js** and **Redux**, ensuring scalability and reusability of components
- Designed and implemented responsive web applications based on **Figma designs**, focusing on user experience and accessibility.
- Integrated front-end components with back-end APIs using **JSON**, enhancing application functionality and performance.
- Utilized **Material UI** to create sleek and user-friendly interfaces aligned with modern design standards

Frontend Developer | Elpisor Ltd. (2022 - 2023)

- Developed high-performance UI components using **React.js** and **Redux**
- Collaborated with cross-functional teams to implement and integrate APIs for dynamic front-end functionality
- Designed responsive and accessible web interfaces, ensuring seamless performance across devices

Frontend Developer | IT Software Solutions (2018 - 2019)

- Designed and implemented scalable front-end solutions using **HTML**, **CSS**, and **JavaScript frameworks**, ensuring optimal performance and maintainability
- Focused on creating **reusable UI components**, enhancing code efficiency and project scalability
- Refactored legacy code to enhance performance and usability

Education

- **Bachelor's Degree in Information Technologies** (2013 - 2017)
Angarsk State Technical University
- **Software Development Course** (2020 - 2021)
Tel-Ran Education Center, Haifa, Israel
