Summary

Frontend Developer with 3 years of experience specializing in building web applications using **React.js**, **Redux**, and **TypeScript**. Skilled in designing scalable and reusable UI components, integrating APIs, and optimizing application performance. Hands-on experience with **databases** like **MongoDB** and proficiency in tools such as **Material UI**. Strong problem-solving skills and continuous learner.

Skills
Frontend: React.js, Redux, JavaScript, TypeScript, HTML5, CSS3, Bootstrap, Material UI

Frameworks: Redux Toolkit, Maven

Databases: MongoDB

Tools & Technologies: Git, Webpack, Firebase, Postman, Figma, JSON, API Development

IDE: WebStorm, IntelliJ IDEA

Work Experience

Frontend Developer | Elpisor Ltd. (2022 - now)
- Designed and implemented high-performance UI components using **React.js**, **Redux**, and **TypeScript**, improving reusability and scalability
- Collaborated on **API** integration with backend developers, enhancing data flow and user interaction
- Successfully implemented and optimized routing systems, enabling seamless navigation across complex applications
- Designed responsive and accessible web interfaces, ensuring seamless performance across devices
- Collaborated with cross-functional teams to integrate new features and optimize applications for better performance and user engagement

Frontend Developer | IT Software Solutions (2018 - 2019)
- Designed and implemented scalable front-end solutions using **HTML**, **CSS**, and **JavaScript frameworks**, ensuring optimal performance and maintainability
- Focused on creating **reusable UI components**, enhancing code efficiency and project scalability
- Refactored legacy code to enhance performance and usability

---

Education

- **Bachelor's Degree in Information Technologies** (2013 - 2017)
  Angarsk State Technical University
